PROFILE

Entry-Level **Java Developer** skilled in **Core Java** , **Spring Boot** , **REST APIs** and **Spring Security** . Hands-on experience on in building secure backend applications with **session-based authentication** . Actively preparing for software development roles and eager to contribute to real-world projects.

EDUCATION

B.Tech - Computer Science

Jawarharlal Institute of Technology(RGPV)

2022 – 2026

India

PROJECTS

Smart Appointment Management System

2025

Tech Stack - Java , Spring Boot , MySQL , Thymeleaf , Spring MVC ,Spring Data JPA , Spring Security

- Developed a **Smart Appointment Management System** to manage appointments between users and doctors using **Spring Boot** and **Spring Data JPA**.
- Implemented **role-based authentication and authorization** (Admin, Doctor, User) using **Spring Security** with secure login and access control.
- Designed and implemented **RESTful APIs** and **MVC controllers** to handle appointment booking, approval, cancellation, and status tracking.
- Built **CRUD operations** for managing users, doctors, schedules, and appointments using **JPA/Hibernate** and **MySQL**.
- Used **Thymeleaf** for dynamic UI rendering and seamless backend–frontend integration.
- Followed **clean code practices** and layered architecture (Controller, Service, Repository) for better maintainability.

SKILLS

Core Java , **Spring Boot** , **Spring Security(Beginner)** ,
MySQL , **REST APIs** , **Maven**

COURSEWORK

- **Core Java & OOP**
- **Data Structures & Algorithms**
- **Database Management Systems**

SOFT SKILLS

- **Problem-solving**
- **Debugging**
- **Code readability**

TOOLS & TECHNOLOGIES

- **IDEs:** Eclipse
- **Version Control:** Git, GitHub
- **Build Tool:** Maven
